

Dear Illinois Administrator,

IASPA, the Illinois Association of School Personnel Administrators, formed in 2006 to serve and to connect Illinois educational human resources leaders. We are the first statewide organization comprised of and devoted to serving K-12 educational administrators who are responsible for personnel and personnel issues.

Our membership is comprised of human resources administrators, superintendents, principals, university/college faculty and those who aspire to enter the field of human resources. What we all do individually and collectively is serve Illinois students, staffs and communities.

An affiliate of the American Association of School Personnel Administrators (AASPA), we offer updated information about the field of human resources through our newsletter, website and annual conference.

This website is designed to serve as a resource to you, identifying recruiting opportunities and strategies and general human resources information. The members-only section features new and archived issues of [the Illinois Insider](#), IASPA's newsletter, handouts from all sessions at the annual conference, IASPA Board meeting minutes, a membership directory, and updated legal references.

Networking is the strength of our organization and we urge you to join and participate. Feel free to contact any IASPA Board member or Committee Chair for more information or to get involved.

Your IASPA Board
