

Dear IASPA Members,

Do you remember what it was like to just start out in school HR? Certainly, there was a lot to learn. Perhaps now you are interested in helping a newer school HR professional learn the ropes or would like to receive additional support as you continue on your own HR path. Our goal as the Mentoring Committee is to match mentors with other IASPA members who are seeking guidance. When possible, we match interested parties within the same geographic area. We keep our mentoring program informal and differentiated so that colleagues can collaboratively decide what works best for them regarding topics, frequency, and method of communication.

We are beginning the process of matching mentors with those who are interested in seeking support through mentorship. Please see the links below if you are interested in either option.

- **MENTORS:** *If you are interested in serving as a mentor, please complete the Google Form linked [here](#).*
- **SEEKING MENTORSHIP:** *If you are a school HR professional looking for additional support in a specific area, please complete the Google Form linked [here](#).*

We will communicate with prospective matches later this summer.

Sincerely,

IASPA Mentoring Committee
